Suggests/Comments if any

33 responses

No

I don't find anything negative regarding curriculum

Nhi

Online doesn't give proper understanding as in physical mode to me

Course is great!

Our sem was totally online based so we didn't performed any experiments in the laboratory due to which the concepts and our practical skills were not get enhanced properly as per the expectations. But we will definately looking for the better practical and lab experiences in the next sem.

As our 1 semester was conducted online so we are unable to perform any experiment related to theory. We hope that situation will be fine soon so that we can enhance Our knowledge regarding practicals in our coming semester.
