We have also invited the students to share their **feedback** on the event and these are some glimpses:

This event is very helpful for mental health in this difficult time because of the pandemic as we can think of some creativity,knowledge and interests in these amazing topics provided by you to participate in the event. This event helped me to think of creativity other than the number of rising cases of covid and deaths due to covid .

Thank you for organizing such an amazing event. I have improved my editing skills by participating in these types of events. Hope you organise more such events and give us chance to enhance our creativity.
