Dr Sonalee Singh,
Head, School of Journalism and Mass Communication
DAVV, Indore

I am writing you on behalf of the youth-led and based organization **Youth for Resilience**. We are working with children and youth in the areas of Disaster Risk Reduction, Climate Change, and SDGs to build a resilient and sustainable world.

As a youth-led organization, we firmly believe in building partnerships and collaborations to create a positive impact and serve the community. Currently, we are working more on capacity building of the youth in DRR and related areas. Since March 2021, we have reached more than **2600 people** from **55 counties** through online training programs & webinars. You can find more about our work here: bit.ly/Youth4Resilience

We want to collaborate with the School of Journalism and Mass Communication. The purpose of this collaboration will be capacity building, internship program and research. As we are working towards similar goals in society, we would love to collaborate with you and take things forward.

Looking forward to your affirming response soon.

Respectfully yours,

Nitish Barole
Founder
Youth for Resilience

Youth For Resilience
Khandwa, Madhya Pradesh

Youth For Resilience is a Youth-led & based organization working towards empowering youth to create a Sustainable, Peaceful & Resilient World.
