Report of the programme

School of Biotechnology, DAVV, Indore, organized an online webinar on 25th Jan. 2021, 1.00 PM, under "Mahila Sammaan Abhiyan" suggested by Government of M.P.

The programme started with a brief introductory speech by HOD Dr. Anjana Jajoo. She told the relevance of this topic and introduced the guest speaker Ms. Shristi Bhargav, Dy SP, Cyber crime, Indore. She delivered a lecture on the topic "Awareness on Cyber crime against Women". It was attended by faculty and students of School of Biotechnology, School of Life Science and School of Biochemistry. Ms. Shristi Bhargawa made the students aware of the type of cyber crimes commonly happening and how to save themselves from becoming a trap of the fraudsters. She said that three types of cyber crimes are common: financial crimes, misuse of private information and misuse of Photos. She also explained the ways how to avoid downloading Apps and online material/advertisements unnecessarily. She emphasized that girls should communicate with the family and close friends regarding their problems, rather than trusting a virtual friend.

Many students asked queries regarding cyber crime which were resolved by the speaker. The programme ended with a note of thanks by Dr. Hamendra Singh Parmar.
