Online Induction Program 2020

The online induction program of School of Computer Science & IT, DAVV started with the address of Head Dr. Sanjay Tanwani. He motivated young entrants with the vision and mission of SCSIT. He also emphasized on project-based learning. He introduced with the SCSIT courses and other academia.

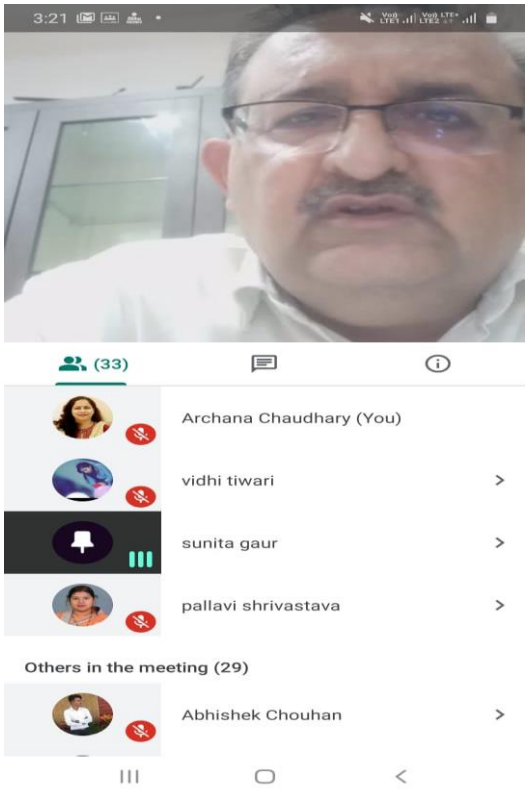
After the address of Head the coordinator of Online Induction Program 2020 - Dr. Archana Thakur invited Dr. Shraddha Masih for the next session. Dr. Shraddha Masih addressed students with encouraging speech. She said that the students didn't just join SCSIT to achieve degree certificate but have joined to sharpen their professional skills. She emphasized for upskilling the knowledge and abilities so that the hiring organizations approach the students of SCSIT to provide dream jobs while they are studying. Our students should go to organizations for begging for jobs after completing their degree. SCSIT calls the best companies to hire the deserving candidates and DAVV was declared as the A+ university which provides job opportunities with very good package. She further explained about the placement procedure which includes written test, group discussion, technical interview and HR interview which requires good communication skills. She advised of practicing good coding as IT companies expect candidates should have good programming skills. She explained about how better a student can present his/her curriculum vitae by adding minor/major projects, certification courses etc. The placed students that are stars of SCSIT were also introduced.

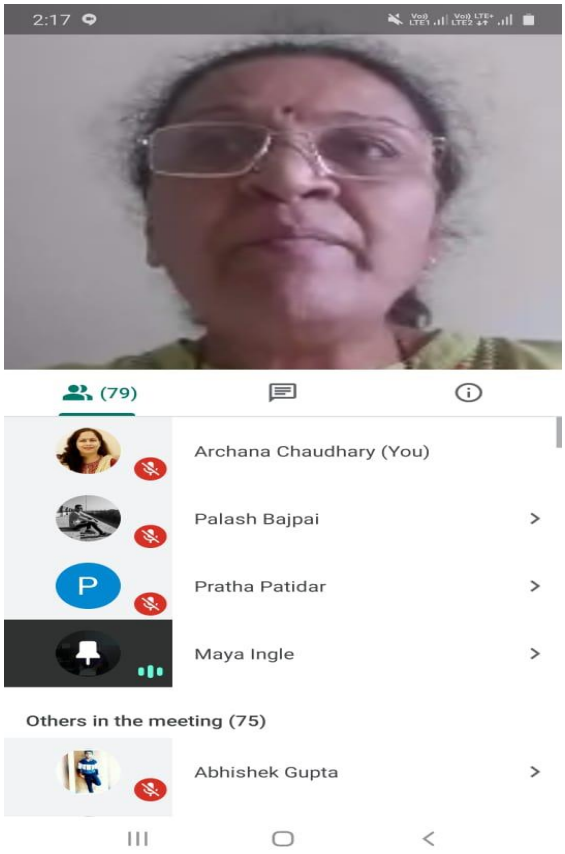
The next session of online induction program was from Academic Planning committee which was conducted by Mrs. ChaitaliUikey. She explained about the academic plan for 2020-21 which includes grading system, credit system, internal tests, tentative time table for examination. She also explained about the weekly schedule of classes and how the students can achieve the required course credits.She further added about course electives, exam ordinance and more.

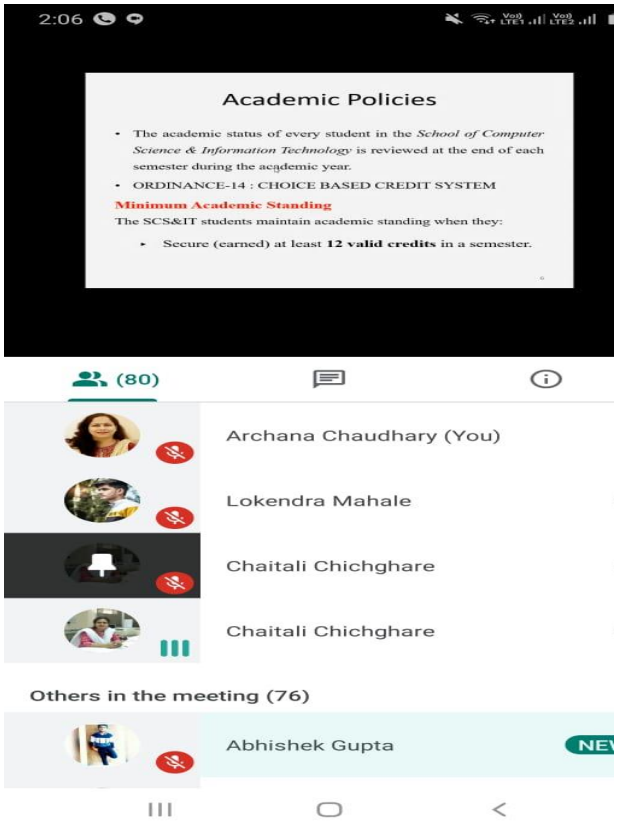
The next session was motivational lecture by Dr. Maya Ingle. She had an interactive sessionby involving the students by asking them about their hobbies like dance/ drama/ debate or any favourite sports. Students came forward and shared about their favourite hobby. Students also shared their experience national level participation. She further requested students to come forward and participate in all the extracurricular activities to represent SCSIT in Yuva Utsav, DAVV competitions. She also motivated students on "Change Management" and emphasized the importance and need of changing by time. She advised students to read books offline, availing them from library which will clarify the concepts and enhance their reading ability. One needs to acquire and adapt the needed changes. Continuous improvement will get you high, higher and to highest level.

The next session was conducted by Dr. Deepika Rai, Mr. Pankaj Jagtap and Mr. Himanshu Kamal Verma. Dr. Deepika introduced the website of SCSITemphasizing on student kit, Swayam portal for online lecture, option for online skill test, Library, Examination option to understand the exam rules, photo gallery of college events and infrastructure, college

syllabus, academic calendar and then faculty profile on SCSIT website. Mr. Pankaj Jagtap and Mr. Himanshu Kamal Verma welcomed the new students and explained about NSS and different types of scholarships. They explained about how students can do social work and help other people as per their needs. In addition, they explained about the right procedure to avail scholarships based upon the category SC/ST/OBC and minority.







2:06
