Live Sketching

- What is live sketching?
- Live Sketching is a form of visual communication or visual storytelling designed for meetings, events or conferences. Although it goes by several different names (such as Graphic Recording, Sketch Notes, Live Sketching as “the real-time capture of content using sketched text and images. Scribing, In addition to the actual drawings, the live artist will also add plentiful color to his or her sketch. Color can be used to reinforce concepts, establish themes, and categorize, along with establishing visual hierarchy and visual navigation. Color also makes the drawings look better, which is always a plus.

OBJECTIVE

Live sketching helps to develop ability of focus and pay attention, a skill that can be very useful throughout your life and career. It also develops hand-eye coordination.
