Department of lifelong learning organized one day workshop on “**TEXTURE PAINTING**” in which 46 participants take part with full of interest and make wonderful paintings on texture art. In the visual arts, texture is the perceived surface quality of a work of art. It is an element of two- dimensional and there- dimensional designs and is distinguished by its perceived visual and physical properties. Use of texture, along with other elements of design, can convey a variety of messages and emotions.
