Over 40 volunteers and 20 staff members actively participated to make their valuable contribution towards the protection of the mother nature. Indeed, nature is the mother of all, as it helps to sustain our life. It is our companion since eternity.</p> <p>The main purpose of the celebration was to spread awareness regarding saving our mother nature. As a part of the celebration, a plantation drive was being organised at the M block. Volunteers planted various plants brought by their own. Numerous varieties of plants were also provided at the college. The drive began in the morning and continued till late evening. Some members adopted a plant and asked others to adopt at least one plant and nurture it till it grows completely.</p> <p>The event mainly focused on the celebration, requirement and the need of our responsibility as humans towards mother nature. As youngsters, we are the future of the world. We must understand that we haven't inherited this earth from our forefathers, but we have borrowed it from our children. Hence, it is our duty to contribute our part in this holy mission of saving our ailing planet. Thank you.</p>
