Interior Designer

Project visit was conducted on 10.09.21 for the students of the 3rd SEM from 1:00 pm to 4:00pm at C-32 Oasis near countryside. Main objective of conducting session was to make them understand the practical aspects of civil work that will enhance their designing skills and let them know about the technical aspects in consideration to civil and interior of designing. The practical lecture enlighten their knowledge regarding the following contents:

1. Basics of civil and construction.
2. Importance of vastu and directions.
3. Themes and concepts of designing a space.
4. Some important facts and details about designing of space.
5. Colour scheme to develop their intellectuality regarding colours.
