Department of lifelong learning organized special guest lecture on **AIDS & HIV Awareness Bcoz it Matters...** In which 28 students and faculties take part and learn very carefully about AIDS & HIV symptoms problems and what they are actually why peoples facing the problems . Speaker Dr. Abhipsa choubey explain all the things very carefully.

HIV (**human immunodeficiency virus**) is a virus that attacks the body's immune system. If HIV is not treated, it can lead to AIDS (acquired immunodeficiency syndrome). AIDS is the late stage of HIV infection that occurs when the body's immune system is badly damaged because of the virus.
