

First Field Visit :-

INTRODUCTION:-

Sri Yugpurush Dham
Baudhik Vikas School was visited by us
on 4th November, 2023.

Objectives/Purpose of visit

Purpose of visit to Yugpurush Dham was to understand issues like Autism, learning disability, children with disabilities & lower IQ at deeper level & to get practical experience.

Profile of Agency Yugpurush Dham
Baudhik Vikas School is not-for-profit
organisation.

The organisation does not accept any donation from individuals.

They run a hospital named 'Paramend Hospital' by profit of that, they function.

The organisation provide/help their improved patients to earn a livelihood by getting a job.

Services they provide to children :-

Assessments, Consultation,
Occupational Therapy, Special Education,
Physiotherapy, Speech Therapy.

Date _____ Page _____
Condition Served:-
Attention Deficit (Hyperactivity) Disorder
ADD or ADHD

Autism Spectrum Disorder ASD

Cerebral Palsy (CP)

Learning Disabilities (LD)

Age Group: 6-12 years.
13-17 years, but most kids were below the
age of 10, as I noticed.

Staff:-

Along with head of the organisation.
There are more than 10 different field
experts are working.

For example, art, music, dance teacher,
Occupational therapist, Physiotherapist,
Special Educator, Speech Therapist,
Vocational trainer, Yoga Therapist,
Cook, cleaner, etc.

The organisation was official registered
under government by 2006.

Date _____ Page _____

Work Done / Observation / Learnings:-

Exposure to real condition of individuals with different mental problems gave a insightful view of the problems.

As mentioned before, patients of learning disabilities, Cerebral Palsy, Autism Spectrum Disorders, Attention Deficit Disorder were observed.

I saw physiotherapist doing massage or pressing some points on children whose senses were weak at birth.

One client patient, used to scratch herself so much that blood used to come out & she used to suck blood of her & with other too.

With proper conditioning, ~~she~~ her behavior was improved with time.

Some Physically handicape like blind, one hand child were also there.

Most patients had a personality problem, behavior problems, difficulty in speaking.

Conclusions,

With proper conditioning, care, love, training and therapies their conditions improved over time.

2nd Field Visit

INTRODUCTION:-

Happy Home R. was visited by us on 20th November, 2023.

Happy Home is a rehabilitation centre for deaddiction from various substances (drugs, alcohol, alcohol...)

2 psychologist friend ~~chose~~ chose to build a rehab centre in 2016. From that year till today, this rehab centre is helping patients people live a better life.

The centre has conducted awareness program regarding drugs & alcohol where rehab centre had participated & trained the police officials in handling drug cases.

Objective / Purpose of visit:-

Aim to visit was to develop deeper understanding of psychiatric treatments & issues.

Profile of Agency:

The rehab centre is a private rehab home made to serve, help addicts regain their lost personality. It is registered under government.

Work Done / Observations / Learning :-

Happy Home Rehab. deals with issues in personality, addiction to substance (drugs), alcohol, porn.

They make patients family know the full procedure.

They take care of patients health/medical issues too.

They appoint/make a person stay for max 120 days (reason - maximum for 90 days a individual can portray a fake personality)

They build a friend like relation to patient. They take case history, Mental status examination before appointing the patient.

They make him follow a healthy schedule, which include early waking up, getting ready, doing yoga, playing with others...

They had received case of young boys too (pubg, porn addicts)

Conclusions -

They used methods like meditation, yoga, individual counselling, group counselling (of similar issues of patients), Physical exercises, Art & recreational therapies, Music therapies, Terrace garden, Indoor games, etc.

Overall the psychologist made / developed a bond of big brother with the patients & make them feel like home.

3rd Field Visit

INTRODUCTION We visited 'Anurabh Special School' on 27th November.

Anurabh is a school that provides training for play school, primary teachers and aanganwadi workers to guide them in early identification & classroom insertion of a child with special need.

It conducts Seminars / workshops on:-

1. For identification & planning for special needs students.
2. Strategies & inclusion of special kids in Classroom.
3. Good practices in supporting students with special educational needs.
4. Multiple Intelligences for Active Learning Experiencing & Understanding.

- 5 Understanding Implications of MI while teaching.
- 6 Practically using MI in lesson plans.
- 7 Behavioural Management in Classroom for Joyful & Effective Teaching.

Objectives/Purpose of Visit.

Anurabh was visited for purpose to witness different therapies & procedure to help special children and understand the functioning of children + Institute.

Profile of Agency

It is a private organisation or school runned by 2 working professionals. It is not setup under government schemes.

Work Done / Observation :-

Anurabh is a organisation runned with pure intention to help to parents of special child.

They train basic skills, vocational skills to children with lower IQ.

Children with better IQ but different mental disease are trained to live financially independent life.

Few months ago of our visit, a 23 year old boy completed his 12th class with help

of Anurabh.

They can't afford professional doctors due to lack of funding. So, the director's relatives who are psychiatrist, gynecologist help them serve the institute for no cost.

They motivate children to do/enhance their different skills other than academics.

Like music, dance, art and craft.

Children then interact, play, make paper bags and sell it to restaurants like The Farzi Cafe, Amul shops.

Predictive Homeopathy Treatment

Based upon Dr. Prafull Vijaykar's Predictive Homeopathy (Mumbai) a medical camp is organized by Anurabh on 1st Sunday of every odd month. A team

A team of doctors from MP Predictive Homeopathy Association, trained by Dr. Prafull treat approximate more than 450 children having Autism (ASD) Mental Retardation, Cerebral Palsy, Down Syndrome, etc.

They use Music therapy, dance as therapy, gardening as therapy.
