* to first floor & before that they are on 2nd floor.

★ They make him follow a healthy schedule which include early waking up, doing yoga, Personal time, Medicine time, Counselling time.

★ Conclusion.

They used method like ~~MIT~~ Motivation, Physical exercise, Music therapies, Indoor game etc

Third Field visit

* Introduction → we visit "Anurabh special school" on 27th Nov 2023

Anurabh is a school that provides training for play school, primary teacher and anganwadi worker to guide them in early identification in classroom insertion of a child with special needs.

* Objective → Anurabh was visited for purpose to witness different therapy & procedure to help special children & understand the function of institute.

* Profile of Agency → It is a private organisation or school run by working professionals. It is not setup under government schemes.

* work done / observation.

They train basic skills vocation skills to children with lower IQ to children with better IQ but diff mental issues are trained to live financially independent life.

Few months ago our visit, a 23 year old boy completed his 12th class with help of Anwarah.

They can't offered professional doctors due to lack of funding. So the director relatives who are Psychiatrist, gynocologist, help to serve the institute for no cost.

They motivates children to learn diff skills other than acadmic like music, dance, art & craft.
