<p>Background</p> <p>Resource person</p>	<p>PART 1: PREFACE</p> <p>The Finance Club of Institute of Management DAVV Indore is a student-driven initiative for fostering a culture for Finance within the realms of IMS Indore. It is a student-run initiative fortunate to be guided by the eminent Honorable Director Prof. Sangeeta Jain and also our Course coordinator Dr. Maneesh Kant Arya. It was established with the purpose of enhancing the financial knowledge of students through various conferences, events, activities, workshops and knowledge sharing sessions. Over the years, the club has adapted to the changing requirements and skill sets of incoming students and has inculcated them within its scope to help establish a strong foundation of financial knowledge outside the classroom.</p> <p>We are extremely overwhelmed and excited to conduct a Seminar on “Introduction to Modern Financial Market”. The guest speaker of the session was Mr. Somil Jain.</p> <p>In the Inaugural ceremony our esteemed guest Mr. Somil Jain, who was also the host of the session was present. The session was presided by Dr. Maneesh Kant Arya, Dr. Divya Purohit and Dr. NK Totala.</p> <p>Our gratitude goes to Mr Somil Jain team for showing interest to conduct such investor awareness programme for our college students.</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Basics of financial markets. 2. Research: - a). Fundamental b). Technical 3. Investing and Trading 4. Risk management 5. Strategy Development <p>AIM OF THE EVENT-</p> <p>Financial Literacy and Financial Awareness are two vital aspects associated with the development of the financial market. The financial literacy and financial awareness goes hand in hand. The investor awareness is very important for any person interested to invest in the financial markets. Investor Awareness is nothing but providing familiarity with the investment environment and understanding of financial market products, especially rewards and risks to make informed choices. It provides financial awareness which plays a pivotal role in the individual’s financial planning.</p> <p>Investing decisions are very difficult to take for the individual investors. Hence, the financial awareness generally improvised the idea of investment among the investors. Awareness and future prospects often provide knowledge to the individuals for taking decisions pertaining to certain personal finance areas, such as real estate, insurance, investing, saving, tax planning and retirement, and involves intimate knowledge of financial concepts such as compound interest, financial planning, the mechanics of a credit card, advantageous savings methods, consumer rights, time value of money, etc.</p> <p>Today, the financial services and the economic sector are highly diversified than ever before. This diversification implies that the individual investors have a wider range of investment instruments to invest in, and there is much greater choice for them to invest their money. In this context it is important to have an idea of the prospects and challenges ahead for the investor. Hence, the Finance club, IMS, DAVV decided to conduct financial awareness program aiming to provide the knowledge of practical scenarios in the financial market.</p>

Summary of the Event	<p>Miss Kanika enlightened our new MBA students who just has chosen this professional course. She explained the benefits and hardships of sales profession by sharing her work experience of 10 plus years in the different industries ranging from FMCG industry to telecom to Petro-chemical industry. She came prepared with multiple slips each slip had written in it a common myth related to sales profession and disproved them by concrete examples from her work. She covered common myths such as, Marketing and sales is the same thing, Sales is not a cup of tea for females, Selling is about winning over customer, and many more to create a clear understanding of MBA students about sales.</p> <p>Sales comes under umbrella the of marketing, goal of sales is to make product visible to the target segment, sales require ground level working which develops a core understanding of market. Being a woman Kanika always suffered from acceptance issues by customers and by other male professionals in taking a female as their superior. She constantly needed to prove her strength and skill set. But now as the environment is changing, sales is becoming equivalent career choice for both males and females. Sales is a about creating a better customer value so as it increases loyalty from customers towards a product and organisation.</p> <p>By the end of seminar students had clear vision about sales and its value in their profession career. After the end of session Miss Kanika had a conversation with students to solve their queries.</p>
