Faculty Development Program on Pattern Making, grading & Marker making

Participation of no. of Faculty- 05

Tuka Auto CAD software was installed in 10 systems. Tukacad is a innovative apparel design software that is perfect for designers and manufacturers of any size. Operating under Microsoft Windows, Tukacad allows the user to accurately build patterns, grade rules and markers for single styles or entire lines. It is the advanced pattern making, grading and marker making system that will streamline production process and reduce operating expenses.

Faculty Development Program: We conducted 3 days Faculty Development Program for faculties of B.Voc. Fashion Technology from **11th September 2017 to 13th September 2017** at the Department of Life Long Learning campus. . The software expert was Mr.Vikas Sharma technician from TUKAtech Gurgaon Hayrana. In this program faculties learned TUKAdesign and TUKAmark software which is used for developing Pattern Making, Grading and Marker Making. The main objective of programme was:

- To upgrade the faculties for new software.
- Pattern Making, Grading and Marker Making through CAD is a part of B.Voc FT syllabus.
