

Academic Audit Report for Management Science

The report indicates the Academic Audit status of Management Science mentioning Curriculum Development and highlighting following features: -

1. Learning objectives are clearly, well defined, measurable, inline with students', industry needs, and are flexible to incorporate changes.
2. Teaching/ learning process is made on time with academic calendar display and is disseminated to all teachers, students and staff timely with proper follow up and evaluation. Innovative teaching learning methods in practice with syllabi up dation is done with timely completion. Use of ICT methods is widely used by teachers. Guest lectures, tutorials, extra classes, enrichment classes, workshops are in well practice and is done time to time.
3. Evaluation process is done on Transparent and fair basis and is communicated to students on time. Grievance handling mechanism is maintained in Institute.
4. Faculties in Department has maximum number of PhDs, good number of National and International Papers, attended workshops, orientation programs, projects and books published.
5. Classrooms are ICT enabled, well equipped labs, Library, computer labs, multi media theatre, sports facilities, Divyang friendly infrastructure and wash rooms are well maintained in Institute.
6. Adequate resources are available for sports, cultural and other activities. And students are encouraged for academic and cultural and co-curricular activities.
7. Industry major projects are encouraged by Teachers and students.

Academic Audit Report for Computer Science

The report indicates the Academic Audit status of Management Science mentioning Curriculum Development and highlighting following features: -

1. Learning objectives are clearly, well defined, measurable, inline with students', industry needs, and are flexible to incorporate changes.
