

## WORKSHOP ON GLASS PAINTING

We arranged one day workshop on “Glass Painting ”at Department of Lifelong Learning, DAVV campus for students, homemakers & senior citizens. Many candidates were participated in the workshop. The workshop involved the concepts of vitreous painting, matte and blending techniques, trace and silver staining of glass. Glass painting workshop usually began using monotone paints, after which other colors and practices were worked. I

In this workshop Student learnt to describe and apply the elements and principles of design in paintings. Student learnt how to prepare surfaces for painting and utilizes a variety of glass painting techniques. They learned and utilized the principles of color theory in paintings. They understood the elements and principles of two-dimensional design and color theory to solved design problems.
