DEVI AHILYA VISHWAVIDYALAYA, INDORE

Women are the most important members of our civilization serving multitude roles inside the family as well as in the society. These days the role of women has not been restricted to household rather many women are occupying high position in the society. They are excelling in almost every field viz., sports, humanities, science, socio - cultural fields etc. To encourage their overall development, government has not left any stone unturned. For promotion of talent in girls, occasional appreciation is an obligation. Whenever they get an opportunity they avail it to the fullest. Indian Science Congress Association, Kolkata and M.P. Council of Science and Technology, Bhopal provide national and state level awards, respectively, every year for the promotion of scientific zeal in youngsters. Two female students of School of Chemical Sciences have received these prestigious awards for the years 2017 (MPCST, Bhopal) and 2018 (ISCA, Imphal), proving thereby dominance of female researchers in scientific research too.
